Thanks Ben! I know this is super annoying and tedious. In cross checking documents for the Action Memo and enforcement documents I noticed the inconsistency and did some research. I think the 98 included the magazine that detonated during Oct. 2012.

Thanks everyone!

Hey Team,

There is a minor change in number of magazines from 98 to 97 (Page was making sure all numbers/dates are in sync with LDM and found this number was different. She relayed this inconsistency to me and I made change). Therefore, I have incorporated this change to all three documents and hereby, I am resending you the latest version of all these documents. Please discard older version.

Ben
